HIP HOP DANCE WORKSHOP

FOR ALL KIDS WITH ENERGY WHO LOVE TO MOVE TO MUSIC

SEPTEMBER 13TH THRU OCTOBER 18TH = 6 WEEK SESSION - \$90. INSTRUCTOR IS JOANNE VOORS OF VOORSTHEATERARTS.NET

COMING TO PCY ON THURSDAYS 3-4pm FOR 1ST THRU 6TH GRADE

This multi-age class is designed for all kids who want to DANCE. To add to the fun, we will be dancing outside in the fresh air on the upper playground. Comfy clothing and tennis shoes are perfect. Dress for fun. Class will be cancelled if it's raining.

This class is all about self-expression and teaches kids to turn energy into creativity. Because hip-hop is focused on being silly and expressive, a child may feel less restricted, and enjoy dancing because of the freedom it allows. This class may be especially helpful to children who are shy and nervous because it promotes unique expression and confidence. Hip-hop is also extremely innovative, so a child could create a dance move in class that is added into a routine! Teamwork is a big part of this workshop.

IT'S ALL ABOUT FUN!!!

Hip-hop is a high energy and fast paced activity allowing kids to burn off some energy after school and may become a healthy exercise routine! If you have a child who is interested in taking dance classes, but is self-conscious, hip-hop is a great way to get them introduced to dance and like all dance classes, hip-hop is a great way for children to learn social skills and manners. This class will teach children to follow direction while still having fun. It will also enable them with communication skills through facial expressions and the ability to tell a story through dance. Hip-hop can improve performance presence in all different styles of dance and entertainment.
